Wellhöfer is well-known for highest quality and proved safety. All our products are tested for low-emission, are climate neutral and we are providing a 15 years guarantee on function.

In 2011 we became part of the over 440 years old Juliuspital Foundation. Since we joined, we have continuously and reliably supported this renowned foundation in its many social tasks (retirement home, hospice, clinic). Last but not least the Juliuspital Foundation is a producer of wine - with around 180 hectares of vineyards, actually the second largest wine estate in Germany.

I hope our product catalogue has stimulated your interest for our business. I would highly appreciate if I hear from you to provide you with further information.

Do not hesitate to contact me under [gillmeister@wellhoefer.de](mailto:gillmeister@wellhoefer.de) or +49 171-3164081.
